HOW TO CREATE AN ANCHOR LINK TO WEBFORM

2025

ARVAL
BNP PARIBAS GROUP

For the many journeys in life

The objective of an anchor link is to skip contents and automatically scroll down to a webform when user clicks on the CTA.

Creating an anchor on your webpage takes 2 parts of actions:

PART 1: Set up the Webform

PART 2: Edit your webpage

Then you're good to go!

Process enhancement

We design and implement process enhancements towards fleet and mobility management to reduce costs and to increase employee satisfaction.

PART 1 - WEBFORM SETTING

Step 1 :

Create a new webform in your BO

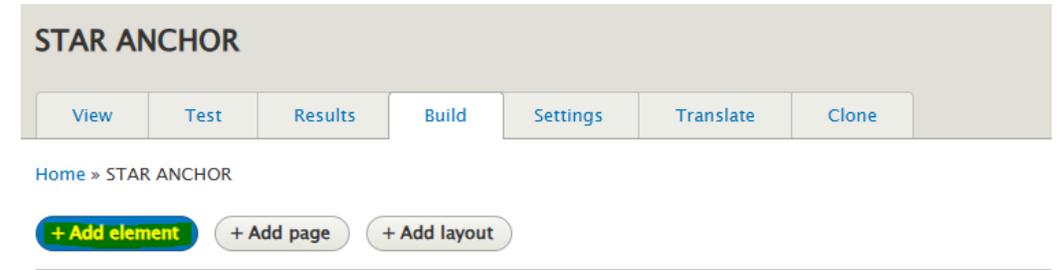

Path: Menu-Structure-Webform-Add webform

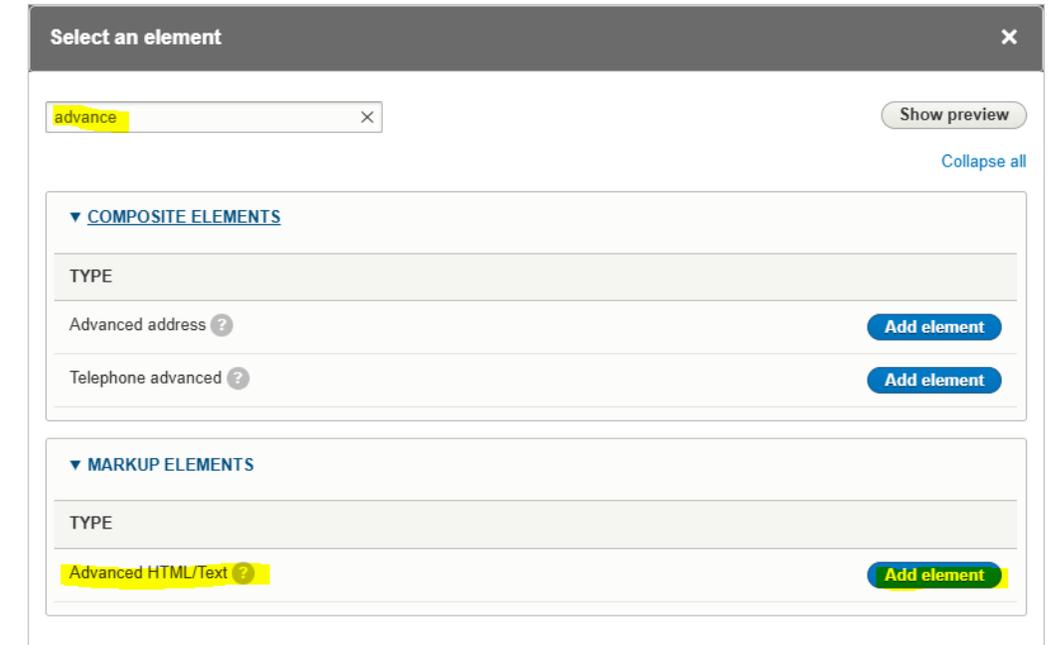

Step 2 :

Once your webform is created, add a title and short description using a HTML text box to set the anchor

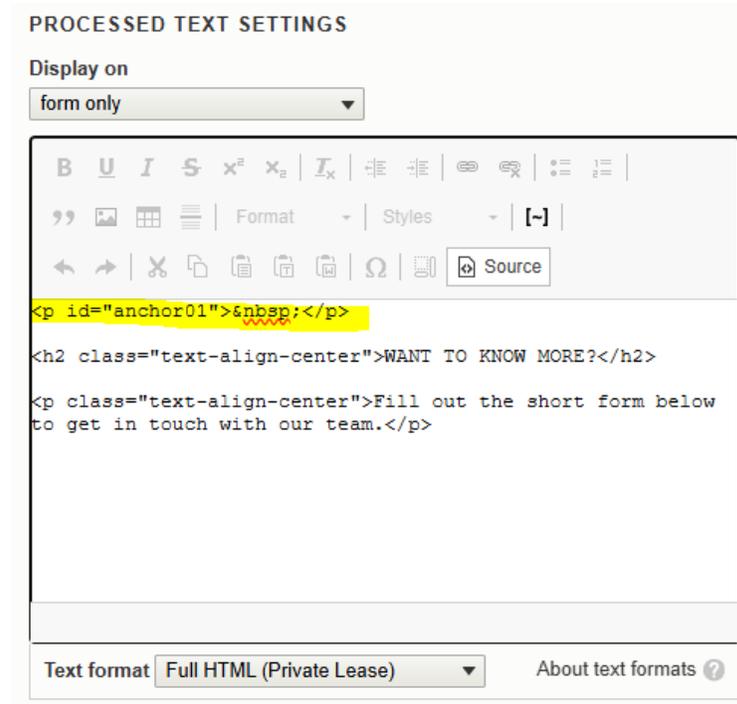

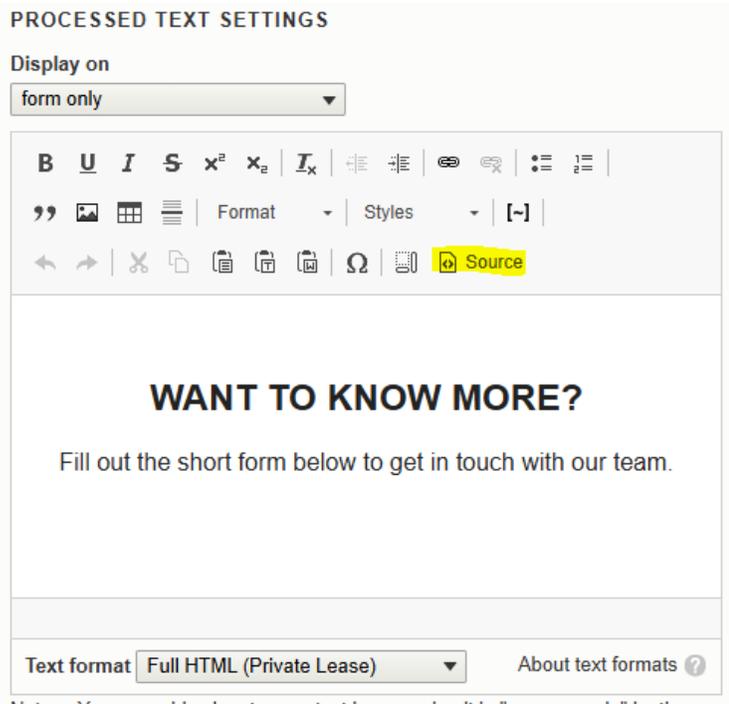

In the pop-up menu, search for **Advanced HTML/Text**, then add element

Step 5 (IMPORTANT) :

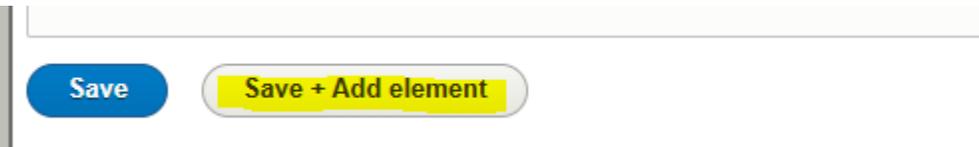

Click the "Source" button and insert the following line of code

`<p id="anchor01"> </p>`

Once inserted, re-click the source to return to view, you will notice that it seems nothing has happened, it's normal.

Don't forget to click "Save + Add element" at the bottom to save your modifications!

Step 6 :

Add other elements in your webform as you usually do, then save this webform
