General Form Submissions Confirmation Salesforce

Since the content of your webform is created, you have to go in setting > confirmation

Select a confirmation type "URL redirects" and add the URL of your file in the field bellow.

## CONFIRMATION TYPE

### Confirmation type

- Page (redirects to new page and displays the confirmation message)
- Inline (reloads the current page and replaces the webform with the confirmation message)
- Message (reloads the current page/form and displays the confirmation message at the top of the page)
- Modal (reloads the current page/form and displays the confirmation message in a modal dialog)
- URL (redirects to a custom path or URL)
- URL with message (redirects to a custom path or URL and displays the confirmation message at the top of the page)
- None (reloads the current page and does not display a confirmation message)
